My immediate thoughts on McSweeney, posted on Twitter:

Starmer and McSweeney were supposedly indivisible. I am hoping that's still true, and that Starmer joins him in exile.

McSweeney has gone. Five thoughts. It had better be real. He had better not be sent to the Lords. And, this won't save Starmer. He made the appointment of Mandelson. He must carry the can, and go. But even this won't save Labour.

I predicted this.

I do think Syarmer will go.

I do not think this will save Labour.

The rottenness is far too deep for that to happen.

The Starmer show is over, but we may suffer a lame duck Labour government for years to come.
